

## Mahya Ashtiani | Text Transcript | CSAHS Award Recognition 2020

---

Hello, Dr. Miyanishi and Dr. Johnson. My name is Mahya Ashtiani. I have started an MA in geography this semester, fall 2020. I am very honoured and grateful that I have received the Kiyoko Miyanishi Graduate Geography Scholarship. I can't describe how much impact this award has had on my life, especially during this pandemic era, which has changed everyone's life in some way. I hope our research and studies can have positive effects on developing our communities. It's hard to show my gratitude in this short video, but I hope one day I can meet you and say thank you in person. I greatly appreciate this opportunity. Thank you very much!
