

Haley Clark | Text Transcript | CSAHS Award Recognition 2020

Hello. My name is Haley Clark and I'm a first-year graduate student in Sociology and I am the recipient of the Bruce and M. Linda Hutchinson Graduate Entrance Scholarship.

I would like to thank Dr. and Mrs. Hutchinson for the opportunity to get this award. My area of research is focused along children with disabilities or special needs and how they interact with the educational system and how this influences their behaviors in relation to crime.

So, I am super excited to start off this research and really get this done even though there's a pandemic going on, but I'd love to thank Dr. and Mrs. Hutchinson again for this scholarship and the ability to continue my education.

My aspirations are just to make an impact in my field of research and just to continue researching and being able to impact society. Thank you again.
