

Alexandra Proulx | Text Transcript | CSAHS Award Recognition 2020

Hi Dr. Wein, my name is Alexandra Proulx and I'm a fourth year Applied Human Nutrition student. I'm also the recipient of the Morton and Pauline Schmidt Memorial Scholarship and I just wanted to reach out and thank you for sponsoring the scholarship.

It is an absolute honor to be selected for this and financially it makes a huge difference, especially with what has happened over the summer with COVID-19 and how that's affected my ability to work.

It also gives me more time to put towards my fourth year thesis which is with the Dietitians of Canada research project in specifically consulting dietitians. In the future I hope to become a registered dietitian and I'm really excited about working in the clinical field. Thanks again.
